Teaching

The Universal Kempo-Karate System

*"More Than Martial Arts!"*

## CHILD SAFETY AND AWARENESS

KEEPING YOUR CHILD SAFE

### THE MISSION

Every child has the right to be safe. It is in the charter of Universal Kempo-Karate Schools Association that we must give back to the communities in which we live.

One way this shall be done is by sharing our knowledge and expertise as it relates to a child's personal safety. By way of the martial arts, we must educate the families and children in our communities on the *Escape, Control* and *Destroy* Safety Techniques that can and must be utilized to ensure each child's well being. It is our objective and responsibility to share our "success systems" of awareness and self protection with our fellow community members.

We, as experts in this field, must do everything in our power to ensure that our next generation of leaders has every opportunity to pursue long and productive lives. We are making a difference, one child at a time.

Professor Garland R. Johnson
